After everything they've been through, Kouhei and Hazuki are happy to find themselves on a secluded island with nothing around but calm seas, azure skies, sacred ruins and...Freyja?! The troublesome vampire is back and up to her old bloodsucking, slave-making tricks. But the battle to save Kaoru from demonic possession will reveal a controlling force more powerful and evil than any they've faced.

If Kouhei can't fight and Hazuki can't escape, can love survive the sins of the father in this volume of *Tsukuyomi: Moon Phase*?

Story So Far

In search for her mother, the vampire girl Hazuki follows aspiring photographer Kento Horike to Japan. Greeted by Kento, head of a vampire clan, in an effort to capture Hazuki, follows them. Kento barely manages to destroy Kikaku and his vampire stronger so he can protect Hazuki. After two years of training in the mountains, protected by a magical barrier known as a lobbit, Kento learned the Erase ability. After a difficult fight, he managed to repel the vampires who were after Hazuki. But, their secret was revealed, they were forced to leave the safety of the mountains. The same arrives at the Usunagi Island, believing it safe from the vampires. While there present in person is a festival on the island, the vampire threat seems to only be behind the closed, endless Kanto.
